About TASE

The Tel Aviv Stock Exchange (TASE) was established in Israel in September 1953.

TASE plays a central role in the Israeli economy and provides a market infrastructure that is central to the economy's growth. As TASE is the only securities exchange in Israel, where access to it is protected by high barriers to entry in terms of regulation and the need for reliable technological infrastructure, Israeli companies and the Israeli government rely on TASE's markets for capital and liquidity.

TASE is the "home court" for Israeli companies seeking to raise capital to meet their growth and liquidity objectives. In so doing, TASE contributes significantly to Israel's economic growth and employment.

TASE is also the "home court" for the Israeli investment community and provides investors with a reliable and comprehensive trading platform for the buying and selling of a wide range of securities and other financial instruments. TASE serves hundreds of thousands of investors, including households, who invest in TASE's markets, largely through investment management companies including pension funds, insurance companies, provident funds, advanced study funds and other entities.

TASE provides markets for the listing and trading of a vast range of securities and derivative instruments. These include shares, corporate bonds, government bonds, Treasury bills, ETFs, convertible securities, single stock options, options and futures on equity indices, and options and futures on foreign currency exchange rates. Trading is fully automated, order-driven, real-time and continuous through our sophisticated Tel Aviv Continuous Trading "TACT" system.

TASE members (banks or brokerage houses) conduct all trading on TASE.

TASE's Ownership Structure

As of August 1, 2019, the Tel Aviv Stock Exchange is a TASE traded public company, following its IPO at the end of July 2019. At that time, TASE floated 31.7% of its shares to foreign and Israeli institutional investors and to the public at large. The shares trade under ticker symbol "**TASE**".

As a vertically integrated platform that is a "one-stop-shop" for clients across asset classes, TASE's wholly-owned subsidiaries include the Tel Aviv Stock Exchange Clearing House, the MAOF Clearing House (derivatives) and the Tel Aviv Stock Exchange Nominee Company, which provide the only clearing and settlement infrastructure in Israel and securities registration services.

TASE Members

There are 23 TASE members - 14 banks, 6 investment houses and 3 remote members. Citibank, HSBC, Barclays, Merrill Lynch International, Jefferies LLC and Flow Traders B.V, as well as subsidiary of UBS is among TASE members. Renowned for their professionalism and standards of service, TASE members serve the community of local and international investors on Israel's growing market (TASE members list:

https://info.tase.co.il/Eng/about_tase/tase_members/Pages/tasememberslist.aspx)

About TASE

Investor Protection

TASE places great importance on market integrity and investor protection. Israel's securities laws are comparable to those governing U.S. and E.U. securities markets. TASE is a regulated exchange, as well as a self-regulating organization (SRO). Its rules and regulations are designed to ensure transparent, fair and orderly trade as well as the financial and operational stability of its Clearing Houses.

The ISA, a signatory to the IOSCO Multilateral Memorandum of Understanding, is charged with the ongoing supervision of TASE. Over the years, ISA has built a highly credible and effective regulatory infrastructure, creating a stable environment for international investment.

ISA has confirmed that the TASE Clearing Houses are operating in compliance with the CPMI-IOSCO's Principles for Financial Market Infrastructures (PFMI) and each should thus be considered a Qualifying Central Counterparty (QCCP).

Member of DTCC and Euroclear Bank

TASE Clearing House is a member of DTCC and Euroclear Bank, providing clearing and settlement services for dual-listed companies in Europe and USA.

TASE Online - Market Data & Information - www.tase.co.il

TASE's **website** (www.tase.co.il) offers extensive market data alongside important information on Israel's capital markets. The site's main feature is a friendly and comprehensive presentation in English and Hebrew of trading data, both current and historic. The site provides an in-depth description of all the products traded on TASE and information regarding listings, the trading system and the clearing houses.

TASE's "MAYA" Website in English (<https://maya.tase.co.il/en/>) the "MAYA" English version makes corporate disclosures of TASE-listed companies more accessible to foreign investors. Listed companies can voluntarily file in English.

The Investor Relations page (<https://ir.tase.co.il/en/>) provides information for Investors about the TASE, including: market data, organizational structure, management, board of directors, the TASE's financial reports, statistics and interested parties.

Stages of the process

Rules Governing a Foreign Bank

Main Qualification Terms and Conditions

The main qualification conditions for stock exchange membership for a foreign bank are as follows:

- It has appointed a manager of its central securities unit in Israel, who has training and know-how in the capital market.

The company shall give written notice to TASE of the appointment and retirement of the manager of the central securities unit within one day of the appointment or retirement.

- it has appropriately insured itself, as required pursuant to the Proper Conduct of Banking Business Directives.
- it has appointed an internal auditor for its branches in Israel, as required pursuant to the Proper Conduct of Banking Business Directives.
- it has the mechanism, means, computer systems and skilled personnel enabling its proper activity on the Stock Exchange and the performance of its duties to its clients, the Stock Exchange and the Stock Exchange members.
- TASE Board of Directors may, at its discretion, stipulate additional qualification conditions for a foreign member, in addition to those set forth in the Rules.

Application for admittance as a Foreign Bank

A form of the application for admittance as a foreign bank is annexed as appendix "A".

The terms and conditions are detailed comprehensively in the relevant Rules which are available at the TASE website: www.tase.co.il.

TASE Clearing Requirements of a Foreign Bank Member

1. Clearing and settlement at TASE is conducted as follows:

- Shares, Bonds, Israeli T-bills, ETF's warrants, mutual fund units etc. ("**clearing of securities**") are cleared by the Tel Aviv Stock Exchange Clearing House Ltd ("**TASECH**").
- Derivatives - Options and Futures - are cleared by the MAOF Clearing House Ltd ("**MAOF CH**").

2. A TASE member has two possibilities for clearing its transactions:

a. to be a member of TASECH and/or MAOF CH.

or:

b. to clear through another General Clearing Member ("**GCM**").

A list of the members of TASECH and MAOF CH that may act as GCM is detailed below.

3. Clearing of securities

a. Clearing through a TASECH member:

- A TASE member must sign a clearing agreement with a GCM. Transactions can be cleared through the GCM in two ways:
 - As part of the GCM's general account, without segregation between the TASE member's nostro and client's securities and the GCM clients.
 - Through an "Additional Client Subsidiary Account" in its account at TASECH, which separates the TASE member's nostro and client's securities from the GCM's client's securities.

A sub-account as aforesaid is subject to annual handling fees that are payable by the GCM, as provided below.

- A TASE member must furnish TASECH with an "undertaking to comply with the by-laws of the Clearing House" (appendix "Three" in TASECH By-Laws - Appendices - part two).
- A GCM must furnish TASECH with an "Our undertaking in respect of transactions and/or activities in the Clearing House" (appendix "Four" in TASECH By-Laws - Appendices - part two).

TASE Clearing Requirements of a Foreign Bank Member

b. Clearing as a TASECH member

The main conditions qualification for TASECH membership are:

- **equity:** a member wishing to provide additional services requires additional equity in respect of each services that will be provided by it, as provided in part one of the TASECH by-laws - chapter two, section 2.a.1)b).
- it maintains a technical and organizational set-up, which enables it to function as a clearing member.
- it will participate in the Risk Fund, as provided in the TASECH by-laws.
- it will give the Clearing House collateral and guarantees, as the Board of Directors shall prescribe from time to time.
- it will insure itself by an appropriate insurance policy, which will cover its activity in TASECH.
- it participates in the RTGS system.
- If, in accordance with the provisions of FATCA (Foreign Account Tax Compliance ACT), it is required to receive a GIIN number, it will inform the TASECH of the GIIN number.
- it will make a declaration regarding the tax residency applicable to it as well as its classification in accordance with the CRS (Common Reporting Standard).

An application form for admittance as a TASECH member is annexed as appendix "B".

4. Clearing of derivatives

a. Clearing through a MAOF CH member

A TASE member which clears its transactions through a MAOF CH member is required to act as follows:

- shall sign a clearing agreement with a GCM. The clearing agreement shall define the relations between the foreign bank member and the GCM and shall include everything stated in section 4 of chapter 4a of the MAOF CH by-laws. As part of the clearing agreement the GCM will set the maximum margin within the framework of which the foreign bank member may act in derivatives traded on TASE (Chapter 4a of the MAOF CH by-laws).
- the GCM shall furnish the MAOF CH with an undertaking in respect of the transactions and obligations of the foreign bank member (appendix "Four" in the MAOF CH By-Laws).

TASE Clearing Requirements of a Foreign Bank Member

b. Clearing as a MAOF CH member

The main qualification conditions for MAOF CH membership are:

- at least one year has passed since the beginning of its activity as a TASE member.
- **equity:**
 - the minimum equity required of a member that is a bank shall be NIS 160 million (equity pursuant to Generally Accepted Accounting Principles).
 - a member requesting to provide services to a TASE member which is not a MAOF CH member shall be required to maintain an additional equity of NIS 160 million, for each TASE member as aforesaid and for each bank under its control which is not a TASE member, to which the member provides services.
- it shall insure itself by an appropriate insurance policy.
- it has the means and the professional manpower to enable it to properly conduct activity on the MAOF CH.
- it participates in the RTGS system.
- If, in accordance with the provisions of FATCA (Foreign Account Tax Compliance ACT) it is required to receive a GIIN number, it shall inform the MAOF CH of the GIIN number that it received.
- it will make a declaration regarding the tax residency applicable to it as well as its and the classification in accordance with the CRS (Common Reporting Standard).

An application form for admittance as a MAOF CH member is annexed as appendix "C".

TASE Trading and Back Office Technology Requirements

1. TASE Trading and Market Data Dissemination Services

a. General

The following sections describe the principles of the trading system at TASE for both equities and derivatives markets and the different alternatives to connect TASE's trading platform - TACT (Tel-Aviv Continuous Trading). The equities and derivatives markets require a separate logical connection for order entry flow. Both connections can use the same communication infrastructure (lines and routers).

b. Order Entry Protocol

TASE runs two trading platforms, one for equities and another for derivatives. A member can connect to both or just one of TASE's trading platforms. Only TASE members have direct market access (DMA) to the trading platform. A member can have more than one order entry connection to each trading platform.

Currently there are no fees for OE connectivity.

TASE offers two OE protocols:

- TACT's Order Entry protocol, named CTCI, is a proprietary protocol over TCP/IP connections that enables the trading member to send, update, and cancel orders and receive order and trade confirmations.
- FIX 5.0 SP2 Order Entry protocol.

c. Market Data Protocols

The real time Market Data feed is disseminated via a separate connection. The Market Data feed includes market data from both trading platforms (equities and derivatives) as well as reference data.

The information is provided by TASE in real time via several protocols:

- The "Spider" protocol - TASE's proprietary protocol over TCP where the fields are predetermined for each type of message in a structure with a fixed length format.
- FIX/FAST protocol - Standard protocol in the FIX 5.0 version with FAST 1.1 compression over TCP.
- The "Spider" protocol over multicast - for TASE Co-Location clients.

The securities and derivatives lists and the reference data are published during the Start-of-day Market Data dissemination at the beginning of each trading day. It is also possible to download the list of all securities from TASE's web site.

TASE Trading and Back Office Technology Requirements

d. Trading Application

In order to implement the OE and the Market Data protocols, local members as well as remote members, may choose one of the following solutions:

- Develop an in-house software for OE and MD that implements TASE protocols.
- Buy a solution from an Independent Software Vendor (ISV) for trading on TASE and for the Market Data feed. Currently there are several ISV's in Israel and several foreign ISV's: ION Trading Ltd, List Group SPA, Vela and FIS (a full list is available on TASE's Website).
- Develop or buy a solution for OE, and obtain Market Data from one of a number of international Market Data vendors licensed to distribute TASE data (e.g. Reuters, Bloomberg, or Data Stream - a full list is available on TASE's Website)

e. Co-Location Service

TASE offers Co-Location services to its customers. The service enables Stock Exchange member firms and their clients, Data Vendors, ISVs and other customers to place their trading servers in TASE's Data Center and benefit low latency connectivity to TASE's trading and Market Data systems. The Co-Location service implements the most advanced infrastructure and offers equal latency for all Co-Location customers regardless of their location internally in the Co-Location DC.

f. London bridge (Global access point)

TASE has established a POP in London (LD6) that is connected to its main site in Tel-Aviv as well as to its DR site via secured reliable lines.

Clients can use this service to trade in TASE (Order entry) directly from Europe, receive market data (by multicast) or to connect their systems in TASE.

Members can connect their DR sites to TASE's DR site using separate leased lines.

g. Disaster Recovery Back-up Site

TASE has a DR back-up site outside Tel-Aviv. The DR back-up site is a warm back-up and can be active within a few hours.

TASE's Order Entry protocol and Market Data protocols support the option of moving to the DR site during a trading day. The member should be prepared for this option as well.

Members can connect their DR sites to TASE's DR site using separate leased lines.

TASE Trading and Back Office Technology Requirements

h. The Test Environment

TASE has a test environment. The test environment is separated from the production environment and uses test symbols and test security-ids. It enables members and data vendors to test their trading applications as well as their BO applications. TASE uses the test environment to release changes in the OE and MD protocols before they are released to production, as well as to conduct UAT for members' new connectivity software before it is allowed to be used in production.

All TASE members use the test environment simultaneously. The test network uses separate communication lines and equipment. Remote members, whose trading systems are outside Israel, can connect to the test environment via Internet using a VPN connection.

A Production Market data feed is also available for test purposes via Internet connection.

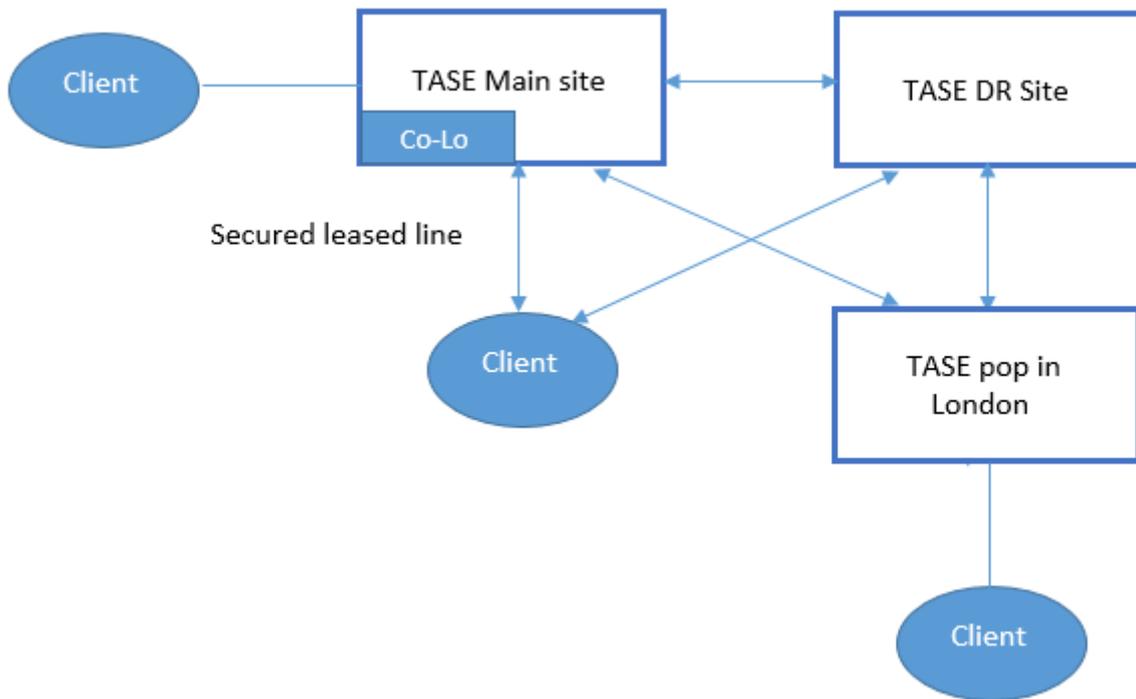

2. TASE Back Office Services

Data files are disseminated by TASE Back Office on daily basis, such as securities and derivatives prices, traded volumes, Indices, TACT (securities and derivatives) and MTS (government bonds) trades, TASE securities and derivatives details, Income and Corporate Actions notifications.

All data files are published in a standard file structure. This structure allows the receiver to develop the same flow for all received files.

TASE Order Entry Connectivity

Fees and handling fees*

Members of the Stock Exchange	Amount
One-time membership fee	Approx. NIS 321,000
One-time application handling fee	Approx. NIS 57,000

Option on the NIS/US dollar rate, exchange futures NIS/USD rate, option of the NIS/Euro rate, futures contract on the NIS/Euro rate	NIS 0.18

Notwithstanding the provisions of section 3 of the Regulations, the trading and clearing commission on options and futures contracts, which are detailed in this section, will not be linked to the index.

The Board of Directors may determine that trading and clearing commission will not be charged on one or more types of derivatives or that the amounts charged on one or more types of derivatives will be lower than the amounts detailed above.

At least three days' notice will be published to TASE members of a decision to once again charge commission as provided above.

VAT will be added to the trading commissions.

Appendix "A" - Application by a Foreign Bank to be a Stock Exchange Member

Date: _____

To
The Tel Aviv Stock Exchange Ltd
2 Ahuzat Bayit St.
Tel Aviv 6525216

Application by a Foreign Bank to be Admitted as a Stock Exchange Member

1. We (name of applicant/s) _____ (hereinafter referred to as "**the Bank**"), whose office address is _____, which are active in Israel, pursuant to a foreign bank license that we received from the Governor of Bank of Israel, a copy of which is annexed, and which have branches in Israel and whose main address in Israel is _____, hereby apply to be admitted as a member of the Tel Aviv Stock Exchange Ltd (hereinafter referred to as "**the Stock Exchange**").

This Concise Guide ("**the Guide**") was prepared by the Tel - Aviv Stock Exchange Ltd. ("**TASE**") and it contains general review of how to become a TASE member. The Guide or any part of it shall not be construed as a representation or obligation undertaken by TASE. In addition, the Review, or any part of it shall not be construed as a recommendation or advice to act in any manner whatsoever. One should not rely on the Guide or any part of it for the purpose of making decisions related to TASE membership or decisions regarding any other matter. The information included in the Guide is concise and basic, and to receive a fuller picture of the information, one is advised to study the TASE Rules and Regulations and the By-laws of TASE clearinghouses ("**TASE Rules**") published on the TASE website https://info.tase.co.il/Eng/about_tase/rulesandregulations/Pages/taseregulations.aspx. In cases of contradictions or inconsistencies between the information in the Guide and information stipulated in the TASE Rules, the TASE Rules shall prevail. TASE and those acting on its behalf, do not guarantee the completeness of the Guide, its timeliness, accuracy or its suitability to any given purpose, and they are not responsible for any defect, error, mistake, omission or inaccuracy in the Guide for whatever reason.
